

Product name: EkoCity 120

Features: EkoCity 120 is a spacious recycling bin with a design focused on its sharp appearance and easy usability. EkoCity recycling bins can be combined into sorting stations where the bins can be placed side by side or back-to-back. The sorting can be guided with colors and labels. The convenient foot pedal is standard and helps opening the filling hatch. EkoCity recycling bin is best suited for urban environments, both indoor and outdoor. Simplify your waste disposal while enjoying its practical features - generous capacity, hands-free opening, and secure locking.
